

Based in Neuchâtel Canton, Switzerland, we are a growing company with more than 50 employees, and operating several aircraft (Piston and TurboProp) under our EASA-FOCA SPO and AOC approvals. As one of the major aerial survey companies in Europe, we fly around various countries. Our services also include commercial passenger flights (scheduled vacation and on request flights). We value the quality of our services and are proud of them. Reliability, safety, and professionalism are an integral part of our values. To strengthen our organization, we are currently looking for experienced

## Turboprop pilots

TRI and /or TRE experience would be an asset; as would current BE20, B350, or PC-12 type ratings!

### Duties

- ◆ Act as pilot in command
- ◆ Act as Task Specialist
- ◆ Ensure flight preparation, including weather, NOTAMs, fuel & performance calculation, pre-/post flight duties, and coordination.
- ◆ Aerial survey mission coordination
- ◆ Be part of different ad-hoc projects for company efficiency improvement

### Requirements

- ◆ Valid Part-FCL ATPL/frozen ATPL with IR and UPRT
- ◆ Valid Class 1 Medical
- ◆ Valid and current type rating with recent experience
- ◆ Good language skills in English
- ◆ Excellent reputation with a clean criminal record certificate
- ◆ Driving license
- ◆ Swiss or European Citizen
- ◆ Willingness to integrate into a growing company established in Switzerland

### We offer

- ◆ An interesting challenge in a dynamic, ambitious, and progressing company
- ◆ Contemporary and competitive salary as well as excellent social conditions
- ◆ Work location: Neuchâtel, Switzerland

### Applying
